

# School trip to ICELAND

Laura grandt • November 2024

November 16 2024.

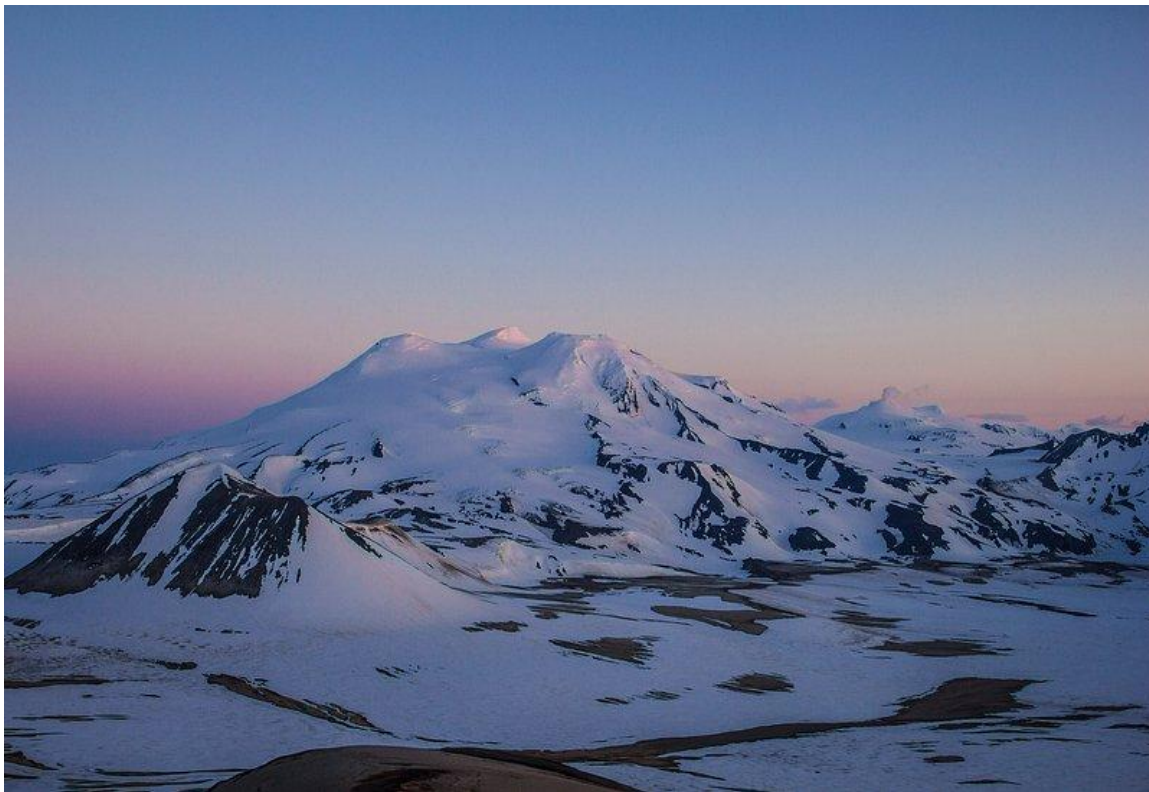

we startede our  
journey from  
Denmark in  
Fredericia to  
Kastrup Airport.  
and from kastrup  
to Iceland where  
we had a stop by at  
Bonus and from  
there to our stay at  
Borgarnes.

# Borgarnes

Iceland, also called the "Land of Fire and Ice," is a place of breathtaking beauty, especially during the winter months. Its landscapes transform into a winter wonderland, with snow blanketed mountains, frozen waterfalls, and steaming geothermal springs creating a chilly charm to the beautiful nature.

**waterfall near Borgarnes**

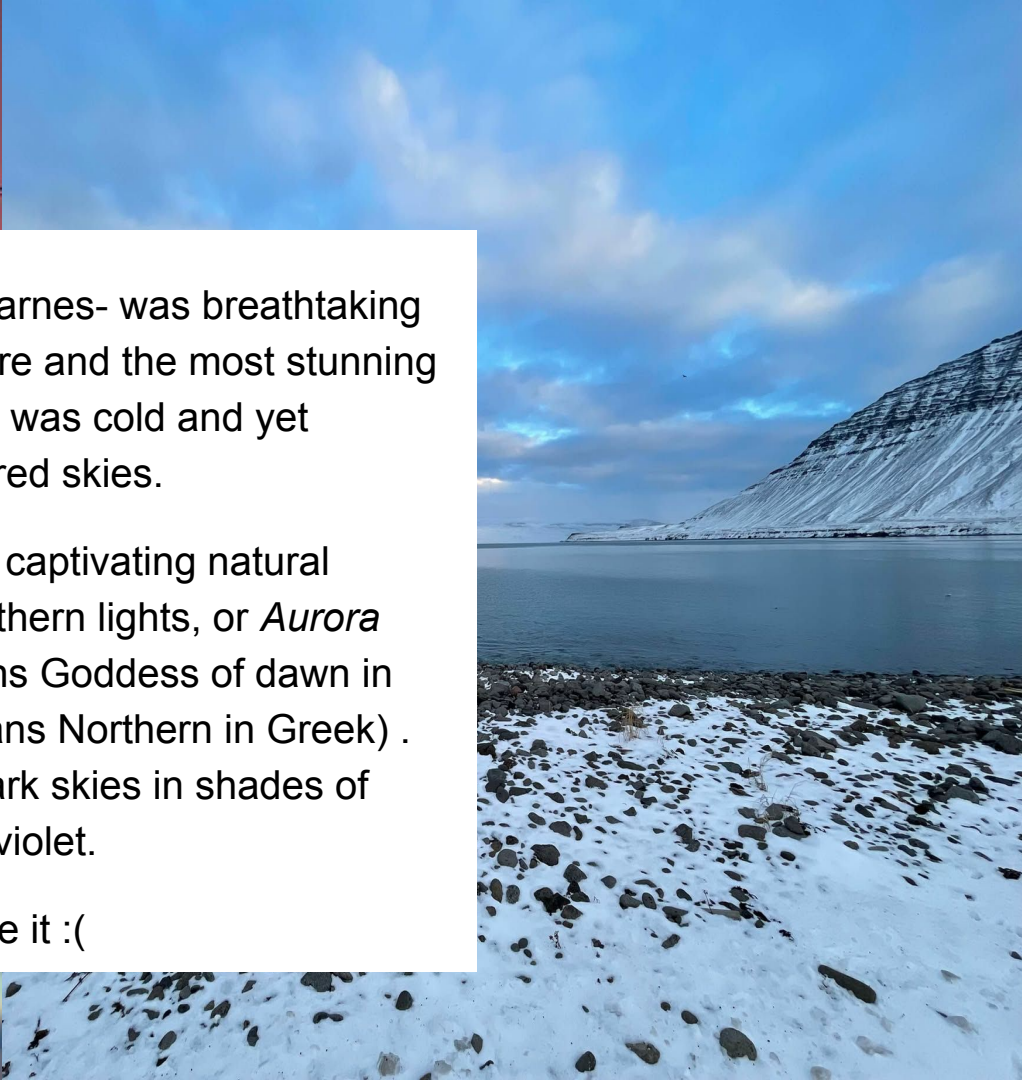

the journey from Borgarnes til  
Isafjordur

our journey from Borgarnes- was breathtaking with the beautiful nature and the most stunning Dawns and sunsets. it was cold and yet beautiful with the colored skies.

One of Iceland's most captivating natural phenomena is the northern lights, or *Aurora Borealis* (*Aurora* means Goddess of dawn in latin and *Borealis* means Northern in Greek) . Dancing across the dark skies in shades of green, pink, blue and violet.

but we didn't get to see it :(

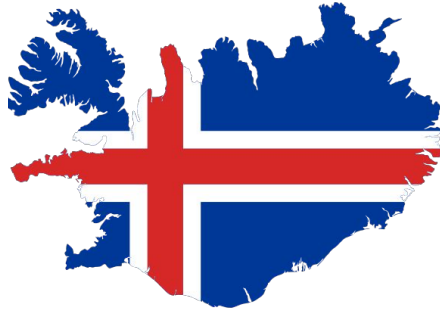

we visited the school in Isafjordur where we had to stay from monday to the next wednesday. the food was either lamb or fish which tasted good, we tried the local restaurant and was greeted by warmth, we visited a local company with some of the students from **Menntaskólinn**. which was fascinating.

the School wasn't big as the one we come from  
but it was very cozy and a beautiful view from  
the dining hall

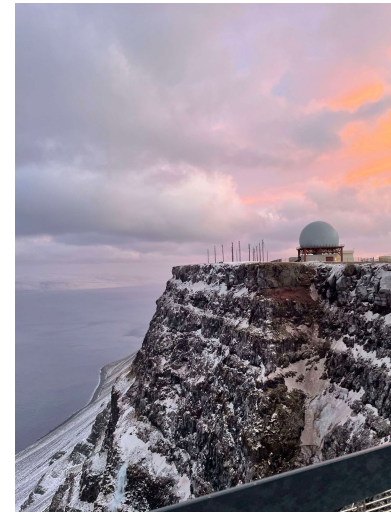

From Borgarnes where we stayed for 2 nights to Isafjordur where we stayed 10 days. we tried a lot of tourist attractions, a lot of waterfalls and hot springs to just sunsets to sunrises. it's hard to describe iceland when we were on the road 24/7 almost.

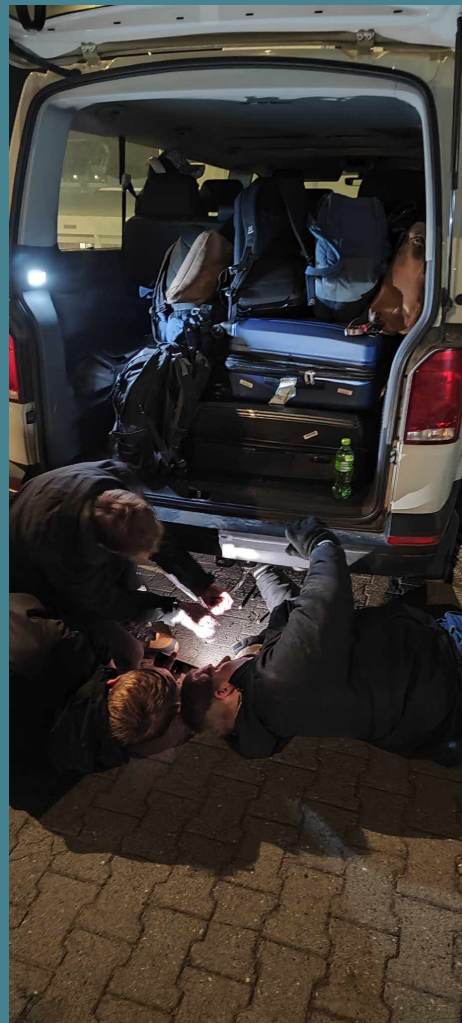

# Reykjavik the city of clean dreams and a beautiful nature.

The country is also home to stunning glaciers, the icy features contrast with Iceland's volcanic activity, evident in its bubbling geysers and relaxing hot springs like the famous Blue Lagoon, which we didn't have the chance to visit, because a volcano erupted and destroyed the parking lot.

Winter also highlights Iceland's unique wildlife, such as the charming Sea parrot called a lundi or puffins, and Arctic foxes. For the adventurous In Iceland, nature reigns supreme, and its winter landscapes invite you to witness the harmony of fire, ice, and light. It's an unforgettable destination for those seeking wonder in nature's embrace.

2 Weeks.  
9 PEOPLE.  
1 car.  
1 flat tire.

# homecoming

the journey home was complicated but we made it and got home safely, our tire had its own life and decided to go flat in the night, but home we got.
