

# Erasmus+ week 5+6

## Finland 2025

## Day 1

We got a little tour of Kupio and went to Puijo Peak.

## Day 2

explore the city and relax.

- Day 3
- We got a tour of the school, on the tour drove we out on a forest road we unfortunately dint get to drive on because it was to hot. We drove simulator the rest of the day.

## Day 4

we continued the simulator and after lunch, did we get to drive snowplow and wheel loader.

In the evening did we get some gourmet a la cart, on Galla.

## Day 5

We learned how to use a wire hoist and drove 6 loads of snow on snow mountain, which wasn't so big this because it has been a hot winter.

## Day 6

On day 6 we got to see the 2 companies me, Victor and Magnus was in week 6. The rest of the day we learned how to drive in hills in a truck, both automatic and manual transmission.

## Day 7

On day 7 we drove Hiab hivision (vr) crane that you drive from the cap of the truck, then we reverse with a 25 m truck and trailer. Then we drove with a remote-control truck and laid snow chains on.

- Day 8 and 9
- We just relax and eksplorer the city, some of os went to af spa and jumped in the lake and in sauna

- Day 10
- We started by getting a sprinter and drive back til the company, then we drove out to a site where they building a house.
- Because of the finnish rols we cont not work out on a site.

- Day 11 and 12
- on day 11 I was out and looking on covers being disassembled. On day 12 me and Maugus where lifting a tilt to a crane of and counterweight of a trailer with a crawler crane

- Day 13 and 14
- We moved some lattice mast on the Company site, then we washed a mobile crane. On day 14 we greased a mobilecrane.

- Day 15
- We alle went home
